THAT WILL INVEST IN YOU**

The Titan T1600-8 is the largest mobile truck unloader in the international marketplace. At 120,000 kg, 35 metres in length and 8 metres in height, this unit has a throughput of over 1,800 tph.

## WHAT WE DO

Telestack specialise in the complete design, manufacture and installation of mobile conveyors which are exported globally. These mobile conveyors are used to move materials such as iron ore, coal, aggregates, fertilizers, grains, woodchips and operate in mines, quarries, ports, rail yards, powerstations and steel mills around the world. Telestack currently employ 100+ staff which include design engineers, welders, fitters, painters, electricians, sales & finance staff.

## ABOUT TELESTACK

The Company, established in 1999, is based in Omagh with an annual turnover of £16.3 million, with 100+ employees and operates from a modern 8,000 sq. metre manufacturing facility. In April 2014 Telestack was acquired by Astec Industries Inc. a NASDAQ listed US Corporation based in Chattanooga, Tennessee, with a turnover of \$1billion (£600.5 million). Being part of the Astec Industries family of Companies will enable Telestack to fast track its future growth and expansion plans.
